PANT INNOVATION

Last year, 5.11 saw tremendous success with the release of the APEX and Stryke™ TDU pants, both of which sold out after their introduction. To design both products, 5.11 worked closely with top tier operators to co-create the next evolution of versatile tactical pants. While the APEX is a low-visibility pant with full tactical features, the Stryke TDU is an agile mission-ready pant. 5.11 continues to innovate their product line in 2016 with the release of the Traverse™ Pant 2.0.

Traverse Pant 2.0 – The next iteration of 5.11's lightweight, ultra-flexible pant is constructed of a quick-drying, breathable four-way stretch fabric.
